

Graduate Certificate - Executive Coaching

The Executive Coaching Certificate is an 18-credit interdisciplinary certificate aligned to Board Certified coach (BCC®) and International Coach Federation (ICF) Certified Professional Coach competencies. This certificate focuses on developing effective communication skills, building rapport, facilitating change in the workplace, using assessments, developing cultural awareness, applying coaching models and strategies, exploring emotional intelligence, and creating a plan to turn a graduate's coaching idea into a business. Knowledge gained in this certificate is useful for leaders and managers in various disciplines, providing them the skills often required to collaborate with clients both internally within an organization as well as externally with groups, teams or individuals.

BCC® is a registered trademark of Center for Credentialing and Education, Inc.

Certificate Objectives

Upon successful completion of this certificate, the student will be able to:

- Distinguish between coaching, counseling, mentoring, and supervising.
- Explain the characteristics that encourage an effective coaching experience.
- Demonstrate fundamental active listening and coaching skills.
- Evaluate various models to determine most appropriate for specific coaching situations.
- Evaluate assessments to determine applicability and effectiveness in various coaching situations.
- Use assessments to promote an effective coaching experience.
- Compare and contrast strategies and techniques associated with coaching individuals versus coaching in teams and groups.
- Generate strategies for coaching teams and groups within an organizational structure.
- Apply ethical guidelines and professional standards associated with individual, team, and group coaching.
- Develop business leadership skills required to be an effective coach.
