

Graduate Certificate - Intelligence Studies

¹ This course is required as the first course in the program.

The graduate certificate in Intelligence Studies provides you with an improved understanding of intelligence development, collection, analysis, structure, and functions, as well as security threats, countermeasures, and counterintelligence. This certificate program is useful in fields where a thorough knowledge of the intelligence and counterintelligence discipline is required. This online certificate is designed for graduate students who wish to add to their knowledge of intelligence without committing to a degree program.

Certificate Objectives

Upon successful completion of this certificate, the student will be able to:

- Assess the evolution, structures, functions, capabilities, and activities of the national intelligence community.
- Evaluate the fundamental capabilities and limitations of intelligence collection.
- Analyze the foundation and application of psychological concepts to the study of intelligence analyses.
- Demonstrate proficiency in the use of selected research methods and tools.

Certificate Requirements (18 semester hours)

Code	Title	Semester Hours
SSGS500	Research Design and Methods ¹	3
