

Bachelor of Science in Nursing

The online Bachelor of Science in Nursing degree is open to registered nurses who have earned an associate degree in nursing and have a current, active, and unencumbered license. The mission of the American Public University System's Nursing Program is to "provide quality, affordable, and accessible higher education for professional registered nurses to foster lifelong learning through a spirit of inquiry in order to prepare students for service and leadership roles in a diverse and global society."

This online nursing program offers you a seamless transition from your associate degree to BSN degree, and provides a foundation for further graduate studies in nursing.

In this online RN to BSN program, you will work with credentialed and experientially qualified faculty to promote interprofessional collaboration and engagement. Online faculty-facilitated discussions and signature assignments provide you the opportunity to review and evaluate a variety of case studies and patient presentations.

The baccalaureate degree program in nursing at APUS is accredited by the Commission on Collegiate Nursing Education (<http://www.ccnaccreditation.org>).

Note: This R.N. to B.S. in Nursing program is currently not open for admission to Tennessee residents or Washington State residents and RN license holders.

This program has specific admission requirements.

Degree Program Outcomes

In addition to the institutional and degree level learning objectives, graduates of this program are expected to achieve these learning outcomes:

- Improve performance in the professional nursing role by developing leadership, management, sound clinical judgment and communication skills to improve the health of individuals, families, and communities.
- Use interprofessional communication and collaborative skills with patients, families, and members of healthcare teams to achieve effective and efficient coordination of care.
- Utilize evidence-based clinical practice guidelines and leadership principles to promote a culture of safety and achieve outcomes that are grounded in institutional values and professional ethics.
- Apply informatics and healthcare technologies to access critical information, to collaborate with other professionals, and to facilitate optimal patient-centered care.

- Apply scientific principles and the nursing process to evaluate responses to therapies and changes in patient health status.
- Integrate knowledge of human and organizational behavior to lead teams and promote cultures of safety.
- Analyze the impact of financial, regulatory, and political decisions on local, national and global health outcomes.
- Synthesize knowledge of ethical, socioeconomic, and cultural factors to decrease health disparities, to advocate for vulnerable populations, and to provide culturally relevant healthcare to individuals, groups, and communities.
- Employ a spirit of inquiry to embrace the value of lifelong learning and participate in professional activities that promote and shape the future of nursing.

Programmatic Admission Requirements

This program is currently not open for admission to residents of Washington or Tennessee.

To apply to this program, you must hold the following:

- Associate degree in nursing or diploma from an accredited or board approved institution in nursing.
- Current, active and unencumbered U.S. Registered Nursing (RN) license

Please visit our AMU (<https://www.amu.apus.edu/admissions/undergraduate-requirements.html>) or APU (<https://www.apu.apus.edu/admissions/undergraduate-requirements.html>) undergraduate admission page for more information on institutional admission requirements.

Note: You must complete this program within 5 years of starting your first nursing (NURS) course.
