

School of Arts, Humanities & Education

The School of Arts, Humanities, and Education teaches foundational skills needed in the professional world. These skills include collaboration, critical thinking, problem-solving, and written and oral communication. Our General Education courses provide a broad-based education in literature, languages, and social sciences. Degree programs prepare students for a wide variety of careers and enhance careers for those who wish to stay in their current jobs. Undergraduate programs include English, Sociology, Psychology, and Communications; Masters' Programs provide deeper, more specialized knowledge in several fields, including Psychology, Sociology, and History.
